1 EDITORIAL

2 FORTHCOMING PAPERS

COMMENTARY

3 Environmental risks from the release of genetically modified organisms (GMOs) — the need for molecular ecology
M. Williamson

PRIMARY PAPERS

9 The construction of *rec*A-deficient *Rhizobium meliloti* and *R. leguminosarum* strains marked with *gus*A or *luc* cassettes for use in risk-assessment studies
W. Selbitschka, A. Puhler and R. Simon

21 DNA fingerprinting in clonal organisms
J. F. Y. Brookfield

27 Unusual mitochondrial DNA polymorphism in two local populations of blue tit *Parus caeruleus*
P. Taberlet, A. Meyer and J. Bouvet

37 Intergeneric natural plasmid transformation between *E. coli* and a marine *Vibrio* species
J. H. Paul, J. M. Thurmond, M. E. Frischer and P. Cannon

47 Last-male sperm precedence in the bushcricket *Poecilimon veluchianus* (Orthoptera, Tettigonioidea) demonstrated by DNA fingerprinting
R. Achmann, K.-G. Heller and J. T. Epplen

MINI-REVIEW

55 Applications of random amplified polymorphic DNA (RAPD) in molecular ecology
H. Hadrys, M. Balick and B. Schierwater

TECHNICAL NOTE

65 Oligonucleotide DNA fingerprinting detects a multiallelic locus in box elder (*Acer negundo*)
H. Nybom, J. Ramser, D. Kaemmer, G. Kahl and K. Weising

68 FORTHCOMING PAPERS

Volume 1, Number 2, August 1992

PRIMARY PAPERS

69 Use of fragment-sharing estimates from DNA fingerprinting to determine relatedness in a tropical wren
W. H. Piper and P. Parker Rabenold

79 Male reproductive tactics in the threespine stickleback — an evaluation by DNA fingerprinting
C. Rico, U. Kuhnlein and G. J. Fitzgerald

89 Biodegradation of phenoxyacetic acid toxicity in soil by *Pseudomonas putida* PP0301 (pR0103), a constitutive degrader of 2,4-dichlorophenoxyacetate
K. A. Short, R. J. King, R. J. Seidler and R. H. Olsen

95 Sexuality in a natural population of bacteria — *Bacillus subtilis* challenges the clonal paradigm
C. A. Istock, K. E. Duncan, N. Ferguson and X. Zhou

105 The genetic legacy of Mother Goose — phylogeographic patterns of lesser snow goose *Chen caerulescens caerulescens* maternal lineages
T. W. Quinn

MINI-REVIEW

119 Conservation genetics of whales and dolphins
A. R. Hoelzel

SHORT COMMUNICATION

127 Cross-species hybridization of a single-locus minisatellite probe in passerine birds
O. Hanotte, E. Cairns, T. Robson, M. C. Double and T. Burke

TECHNICAL NOTES

131 DNA finger prints from minimal blood volumes
E. M. Watt and V. M. Watt

133 Detection of simple sequence length polymorphisms by silver staining
M. Klinkicht and D. Tautz

135 Single-strand PCR-labelling of minisatellite fingerprint probes
K. Rassmann and D. Tautz

136 FORTHCOMING PAPERS

Volume 1, Number 3, October 1992

FULL PAPERS

137 Monitoring the persistence of a genetically engineered *Pseudomonas putida* strain and its recombinant DNA in freshwater
F. J. Genthner, R. P. Campbell and P. H. Pritchard

145 Evolutionary history of the honey bee *Apis mellifera* inferred from mitochondrial DNA analysis
L. Garnery, J.-M. Cornuet and M. Solignac

155 Deterministic paternity exclusion using RAPD markers
P. O. Lewis and A. A. Snow

161 DNA sequence variation of the mitochondrial control region among geographically and morphologically remote European brown trout *Salmo trutta* populations
L. Bernatchez, R. Guyomard and F. Bonhomme

175 The nodular endophytes of *Coriaria* spp. form a distinct lineage within the genus *Frankia*
G. Nick, E. Paget, P. Simonet, A. Moiroud and P. Normand

183 Influence of DNA supercoiling on the loss of culturability of *Escherichia coli* cells incubated in seawater
M. J. Gauthier, B. Labedan and V. A. Breittmayer

SHORT COMMUNICATION

191 The identification of sex in the starling *Sturnus vulgaris* using a molecular DNA technique
R. Griffiths, B. Tiwari and S. A. Becher

TECHNICAL NOTE

195 DNA stabilization and amplification from museum collections of extracts originally intended for allozyme analysis
A.-M. Tan and C. Orrego

198 FORTHCOMING PAPERS

Volume 1, Number 4, December 1992

FULL PAPERS

199 RFLP analysis of genetic variation in North American populations of the fall armyworm moth *Spodoptera frugiperda* (Lepidoptera: Noctuidae)
Yang-jiang Lu, M. J. Adang, D. J. Isenhour and G. D. Kochert

209 Survival and detection of an introduced *Escherichia coli* containing the porcine somatotropin gene from a waste treatment microcosm
M. A. Gealt, S. Selvaratnam, L. Abrams and R. M. Synenki

215 Asymmetric hybridization between two species of sunfishes (*Lepomis*: Centrarchidae)
B. R. Konkle and D. P. Philipp

223 Estimating average within-group relatedness from DNA fingerprints
H. K. Reeve, D. F. Westneat and D. C. Queller

233 Design and testing of a plant-specific PCR primer for ecological and evolutionary studies
K. W. Cullings

241 The structure and interrelationship of fungal populations in native and cultivated soils
T. R. Gordon, D. Okamoto and M. G. Milgroom

SHORT COMMUNICATIONS

251 Restriction fragment length polymorphisms in satellite DNA distinguish chromosomal races of the white-footed mouse *Peromyscus leucopus*
A. D. Simmons, J. L. Longmire, T. W. Reeder, H. A. Wichman and R. J. Baker

255 Discriminate suckling in pipistrelle bats is supported by DNA fingerprinting
C. M. Bishop, G. Jones, C. M. Lazarus and P. A. Racey

259 AUTHOR INDEX

261 KEYWORD INDEX
